

Dear Sponsor,

RE: Gibraltar Laboratories Report Server [Please share this with your IT Professional]

Gibraltar Laboratories is pleased to announce the availability of our new Report Server. The state-of-the-art server utilizes Biscom Delivery technology to enable organizations to exchange files easily and securely across the internet. As a member of Gibraltar's Report Server, you will have real-time access to up to 6 months of testing results.

This advanced technology will make your job easier! Gibraltar is thrilled to be able to pass along these benefits to you. By using our free, value added, technology you will immediately benefit by having past report data at your fingertips. You will be able to login to the protected server and receive prior reports and results without having to send an e-mail or pick up the phone.

In an effort to ensure the security and integrity of the system, we require some information from your company's IT department to set up your account. Gibraltar is requiring that each user of the Gibraltar report server be associated with an IP address. [Later when you register your Report Server user name will be your company email address.] This link will ensure that the Gibraltar Laboratories Report Server can only be accessed from your company's network of authorized computers.

We request that you forward this e-mail to the IT department and provide us with their contact information so that we may finish setting up your account.

If you have any questions please feel free to contact Mike at Gibraltar Laboratories by calling 973.227.6882 x 514 or e-mail at

Sincerely,

Kristah J. Kohan
Sales Manager
